Greetings

Welcome to MH Interiors, an interior design studio based in Lusaka, Zambia. Specializing in creating unique spaces and creative designs for each client. We offer a new look and modern twist on our designs with careful consideration to making each and every space tailored to our clients design needs. MH interiors takes great pride in all designs no matter how big or how small they may be. We believe that each and every space we work on should be a look into the future of the growing Zambian economy.

About Our Company

MH Interiors is a Zambian based business running at South African standards. With our designers all graduating from South African universities, we offer top of the line design developments and create spaces to improve the experience and functionality of each every space we touch. We believe that every person should love the environment they are in and allow them to have full freedom in the space.

MH Interiors

The Story

Founded in 2021, MH Interiors was had a tactful and busy start in the foundation of our future. We believe the design should be shared and creativity should be explored in all space, starting from a simple business plan, we strive to expand and grow the field of Interior designing in Zambia. Each and every space we touch has become a signature in our design story and we will strive to create more and more beautiful spaces in and around Zambia.

About our plan

Our Vision

To create and inspire spaces with the principles of design and develop functionality and practicality of all design areas.

Our Mission

We strive to show each of clients the value we as a company and to the spaces we create and ensure that they exceed their expectations in all manners.

About our services

Interior design

3D Designs, specification drawings & Design Layouts

We offer a full design process including, conceptualization of the designated space, Design Layout with details of loose and fixed Furniture, materials and finishing. 3D renders give you a step into the space for the first time to give a first hand experience into the space.

Complete with specification drawing showcasing the detail in each design and highlighting the execution process.

Project Management

In addition to the design process we offer the client a full team to execute the design as specification drawings, Our team is trained to study the design and make it come to life as per design specifications.
